

Dear Valued Business Partner,

The U.S. Export Regulations outline the importance of complying with all applicable export control and sanctions laws related to products, software, technology, and services. Compliance requires due diligence measures to verify that the end use and end user of our products are in accordance with U.S. export laws when exporting/re-exporting.

Yazaki North America, Inc. (YNCA) in its interest to fulfill the regulatory requirements with U.S. Customs as well as any other agencies and government entities, YNCA has been relying the inputs from our partners through the End Use/End User certificate ("the certificate").

To exercise reasonable care, YNCA requests that its partners provide voluntary updates to certificate as our partners, and YNCA also reserves the right to perform frequent updates from its partners as necessary.

As such, Yazaki North America, Inc. kindly requests for timely completion of the attached certificate.

Should you have any questions, please do not hesitate reaching out to our Compliance team CustomsExportTeam@us.yazaki.com.

Your support on this matter is appreciated.

Thank you,

Ramiro Munoz, LCB, CCS

Head of Customs and Global Trade Compliance
Director, Supply Chain Management
